EDICINAL.

Appearances are what attract the opposite sex. Sometimes this seems as if it would be just as if it were a fine mind was the attraction instead of a fine face and figure. But you can't change human nature. When you come to understand it there is a sort of justice about it too, because although we can't all be handsome, almost every one of us can add at least 50 per cent. to his or her attractiveness by a little attention to the laws of beauty. When the eyes are dull, the lips pallid and the hair falling out, the figure thin and wasted or overstocked and ungainly, the trouble is something more than mere outward appearance; the inner condition is wrong, the blood is poor; it lacks the pure nourishing qualities which are needed to vitalize and invigorate the body. This case physical activity is largely a question of pure, rich, red blood.

Every woman will be healthier and happier for following the friendly, practical counsel contained in Dr. Pierce's Great Universal Medical Advertiser. It is the most comprehensive medical work ever published in the English language. It contains 1000 pages, fully illustrated, 60000 copies have been sold at \$1 each bound in cloth. The book is now in printing, and a million more copies bound in strong manila paper covers. To get one you have only to send at once stamps (to pay cost of mailing only) to World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

SOUTHERN MEMORIAL ABBEY.

The board of trustees of the Memorial Abbey of the South met in Richmond Friday. They found that they could not take out a charter in the form they wished under the laws of Virginia. They therefore delegated to Col. McIntosh, of Mississippi, authority to perfect the charter under the laws of the State of Alabama, as a complement to the State whose capital was the first capital of the Confederacy. Should there be anything hindered in perfecting it under the laws of the State of Alabama, then it should be obtained under the laws of Mississippi, as a complement to the home of Jefferson Davis. When next they meet for organization they will assemble at Chattanooga, Tenn. They will then effect a permanent organization by the selection of president, secretary, treasurer and such other officers and sub-committees as they may see proper.

The Rouss Memorial Hall Association at a meeting in Richmond Friday designated Gen. Johnson, of Alabama; General Briggs, of Kentucky; Dr. Teague, of South Carolina, and General Jackson of Tennessee, as a committee to visit New York and confer with Mr. Rouss and show him the great opposition in the South of locating the proposed Battle Abbey in Washington. A strong sentiment exists against placing it in Washington.

PLAYED 'POSSUM AT SUICIDE.

"I think suicide is the proper career," remarked a Marcus Hook, Pennsylvania, man to his wife last Saturday. There had been a slight domestic difference, and the husband went upstairs. A minute later a pistol shot startled the family. The wife ran upstairs, but found that the door had been barricaded and heard her husband groaning inside. Then she screamed and fainted. Her scream frightened her children, and they yelled. This brought the fake suicide to the door, where he discovered his wife. He jumped to the conclusion that his joke had killed her. He worked an hour over her, and was on the point of notifying the police and giving himself up when the wife came to and a reconciliation took place. The husband then told her that he had fired the shot out of the window. A kiss settled the whole business.

If it required an annual outlay of \$100.00 to insure a family against any serious consequences from an attack of bowel complaint during the year, there are many who would feel it their duty to pay it; that they could not afford to risk their lives, and those of their family for such an amount. Any one can get this insurance for 25 cents, that being the price of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. In almost every neighborhood some one has died from an attack of bowel complaint, before medicine could be procured or a physician summoned. One or two doses of this remedy will cure any ordinary case. It never fails. Can you afford to take the risk for so small an amount? For sale by L. Stabler & Co., druggists.

LEPERS LOOSE IN PARIS.

The discovery recently of a leper wandering homeless in the streets of Paris has been followed by the announcement that fully a hundred sufferers from the loathsome disease are at large among the poor of the French capital.

Coupled with this news comes the somewhat reassuring statement to the Academy of Sciences on Tuesday by Dr. Bouffe that he had succeeded in curing severe cases of leprosy. He had been struck with the results obtained by the aid of graduated, organic injections in cases of eczema and psoriasis. The doctor sought to modify the condition of the nervous system by strengthening without exciting it, and soon noted the correctness of his conception.

He also studied by means of a new technical process the condition of the blood of leprosy patients and succeeded in demonstrating the presence of bacilli of leprosy which had never before been discovered elsewhere than in leprosy tubercles.

CORPSE HELD HER IN BED.

It was a rude awakening which came to Mrs. Peter Kautz, of Philadelphia, on Saturday morning. At her bedside her husband fired a bullet into his heart, and fell across the bed in such a position as rendered it impossible for Mrs. Kautz to move.

To her screams of alarm Policeman Koehman responded and raised the body of Kautz from the bed. It was evidently useless to send for a physician, for the man was dead.

Kautz was a machinist. He had been drinking heavily recently, and when in his cups repeatedly threatened to kill his wife and himself. He apparently decided at the last moment, however, to be satisfied simply with suicide.

The inquest in the case was held when Mrs. Kautz testified. The jury's verdict was one of "suicide by shooting."
